

JIM JELINSKI'S TILE IN STYLE

August 20, 2002

I have been using the professional stone care services of Royal Care Services, Inc. for years and have referred many of my customers to them. They are absolutely great when it comes to servicing the natural stone products that we install.

I highly recommend Don Harari and his company to restore or maintain your natural stone products. He has been in this business for many years and is very experienced in the field, not to mention that his approach is also very professional.

Sincerely,

Jim Jelinski
President
